BREAKING GROUND ON THE NEW I-94 INTERCHANGE AT DREXEL

Milwaukee, WI – Milwaukee County Supervisor Steve F. Taylor joined Governor Scott Walker at Friday's groundbreaking for a new interchange on I-94 at Drexel Avenue in Oak Creek.

"The Drexel Interchange will be a key component for increasing economic development in both Oak Creek and Franklin," Supervisor Taylor said. "The future of Milwaukee County's economy is in the southern suburbs, and this new interchange will help us attract jobs, reduce our tax burden and provide essential services that our residents expect."

The new interchange is expected to be complete later this year, and will be the first new interchange added to the freeway system in Milwaukee County since the 1970s.
